

Michigan Law requires every governmental unit that enforces the State Construction Code to have a Construction Board of Appeals. The Law also requires the five members of the Construction Board of Appeals to be qualified by experience or training in the field of construction and codes. The members of the Construction Board of Appeals are appointed by the Supervisor with Township Board approval and hear appeals from the decisions of the Township Building Official. The current Board consists of three architects, one engineer and one retired electrical contractor and inspector. Meetings are held only when an appeal has been filed.
